

England Hockey Trans and Non-binary participation policy

EH Trans and Non-binary participation policy

England Hockey is committed to ensuring that the sport is visible, relevant, and accessible to everyone and to ensuring that any transgender or non-binary participant should be able to access and enjoy hockey without fear of discrimination, prejudice, or harassment, and any form of discrimination will be dealt with in line with our disciplinary procedures

What does the new Policy mean?

The new Trans and Non-Binary Participation Policy has been developed to ensure everyone can participate in the playing of hockey in a fair way. To enable this, England Hockey has created two categories of competition within hockey – a Female category and an Open category.
